Introduction

Able Group Trading Contractors is a fast growing, successful business conglomerate operating for past 20 years in India and Middle East with strong management capabilities offering a wide range of civil engineering services including infrastructure development-earth works, road works, bridge works, airport-runways, drainage system and civil structures.

Able Group Trading Contractors a wholly owned business mainly focused on the service of the construction, trading of all kind of hardware and building material and transportation.

Able Group Trading Contractors the flagship company of the group, having its registered office at Calicut, Kerala, India on 2006 is capable of executing complex construction projects of varying sizes. The company is presently involved in some of the noteworthy projects in State Highway connecting Manakvu-Kanniparamba Road, renovation of old DFO's bungalow, construction of sambrakode bridge across siruvani river.

Mr. Yakkob Purayil, The Chairman and the Founder is the fulcrum behind the group of companies and is supported by a seasoned yet young team of board directors and employees. His business acumen and vast experience is coupled with the management skills of Mr. Muhammed Basheer CEO, Mr. Ishaque Purayil, Board Director of the company. He and his highly skilled and experienced technical teams steer the company from the technical front using there vast experience in the field of construction engineering and successful project performance in Kerala Public Work Dept. (PWD) Kerala Tourism Dept., Kerala Fores Dept., Kerala Housing Board, Kerala Harbour Engineering Dept., Kerala Sidco Etc.

Objective

Team 'Able' with its dedication for excellence in Infrastructure Project Execution has its Vision:

- Achieve high standards of professionalism
- Have a long term growth and relationship perspective
- Ensure timely completion of projects
- Achieve cost optimization and high quality engineering
- Work towards enhanced client satisfaction, every time

Able Group Trading Contractors is poised to grow faster owing to its unrelenting quest for excellence, quality, perfection, positive attitude and team spirit and all these focus towards enhanced client satisfaction.

Quality Policy

Our policy is consistently endeavor to meet the standards set by civil engineering clients & industry. Able Group is committed to apply quality management systems within its business to meet the requirements of our Clients. Our quality policy reads as:

- Identify the changing needs and expectations of our clients;
- Maintain process and procedures which ensure that changes are accommodated;
- Provide services on time and at the cost specified or less;
- Provide an exemplary environment where continuous improvement is encouraged;
- Train all the staff and contractors to act in accordance with the requirements of this policy.
- To render service of international standards and contract specification.
- To consistency endeavor to realize enhanced client satisfaction.

Health, Safety & Environment

The safety policy of Able Group Trading Contractors is laid out with a view to provide everyone a safe working environment. We recognise our responsibility for the physical well being of our employees as established by regulations. We further recognise the vital role that effective accident prevention measures play in an efficiently run project.

Our managers and supervisors are responsible and accountable for the implementation of safe work procedures and maintenance of job site free from hazards that would enganger people or property. Support of this objective is a condition of employment.

The Company's accident prevention policies are contained in a Supervisor's Health and Safety Manual that covers the following areas:

- The organizational and individual responsibility for accident prevention.
- Guidelines for pre-job planning
- Requirements for conduction weekly job stie safety inspections.
- Specific safety rules for supervisors and craftsman.
- Specific policy requiring that each newly hired employee receives orientation in the Company's accident prevention program.
- Emergency procedures, including the requirement of each superintendent to hold a valid, current certification of First aid procedures.
- Proceures for investigation and reporting accidents.
- Compiling of incidence rates for monitoring safety performance.
- A recognition program for business groups showing significant improvement in safetyh & environmental standards.

Promoter Profile

Mr. Yakkob Purayil – Age 55 is a Indian National and Chairman of 'Able Group' and founder Partner of Able Group WLL, Qatar. He was the Chairman of Able Group of Companies in GCC countries until year 2012. After his matriculation from Calicut he migrated to Qatar in year 1980 and took up employment in a private sector. His 15 years stint in administration department of Mannai corporation helped him to gain business acumen. He also developed proficiency in Arabic speaking and got familiarized with Arabic culture. He realized the importance of proper networking and liaisoning with Govt Depts and Royal families. In the year 1996 he left Mannai Corporation and started his own business on a small scale basis.

He established Able Group W.L.L. in State of Qatar since 1996, is a professional dealer engaged in wholesale and retail distribution, Import and Export of Sanitary, Painting Tools, Hand tools, Hardware and power tools, safety products, plumbing, electrical, carpentry items and building materials etc.

In the year 2000 he founded Al Able Trading & Transport WLL Qatar, with just 5 road tankers. Al Able later grew to a fleet size of 250 road tankers and trucks. Al Able used its fleet of vehicles to establish itself as leader in waste disposal management in Qatar. Later on Al Able diversified in other businesses like Garage, Super Market and Fabrication. Mr. Yakkob wisely devised a policy of plugging back of profits in other businesses with a geographical spread.

Keeping an eye on the business opportunities available in UAE, he shifted his base to UAE and in year 2006 and he started Al Marwa Diesel Trading LLC to sell diesel to industrial and commercial sectors, he set up a contracting division in the year 2007, Able Middle East Gen Con Co LLC to take up infra structural sub-contracts. under his leadership AME UAE completed many prestigious projects like Yas Island F 1 Track and major pipe-line and road construction projects.

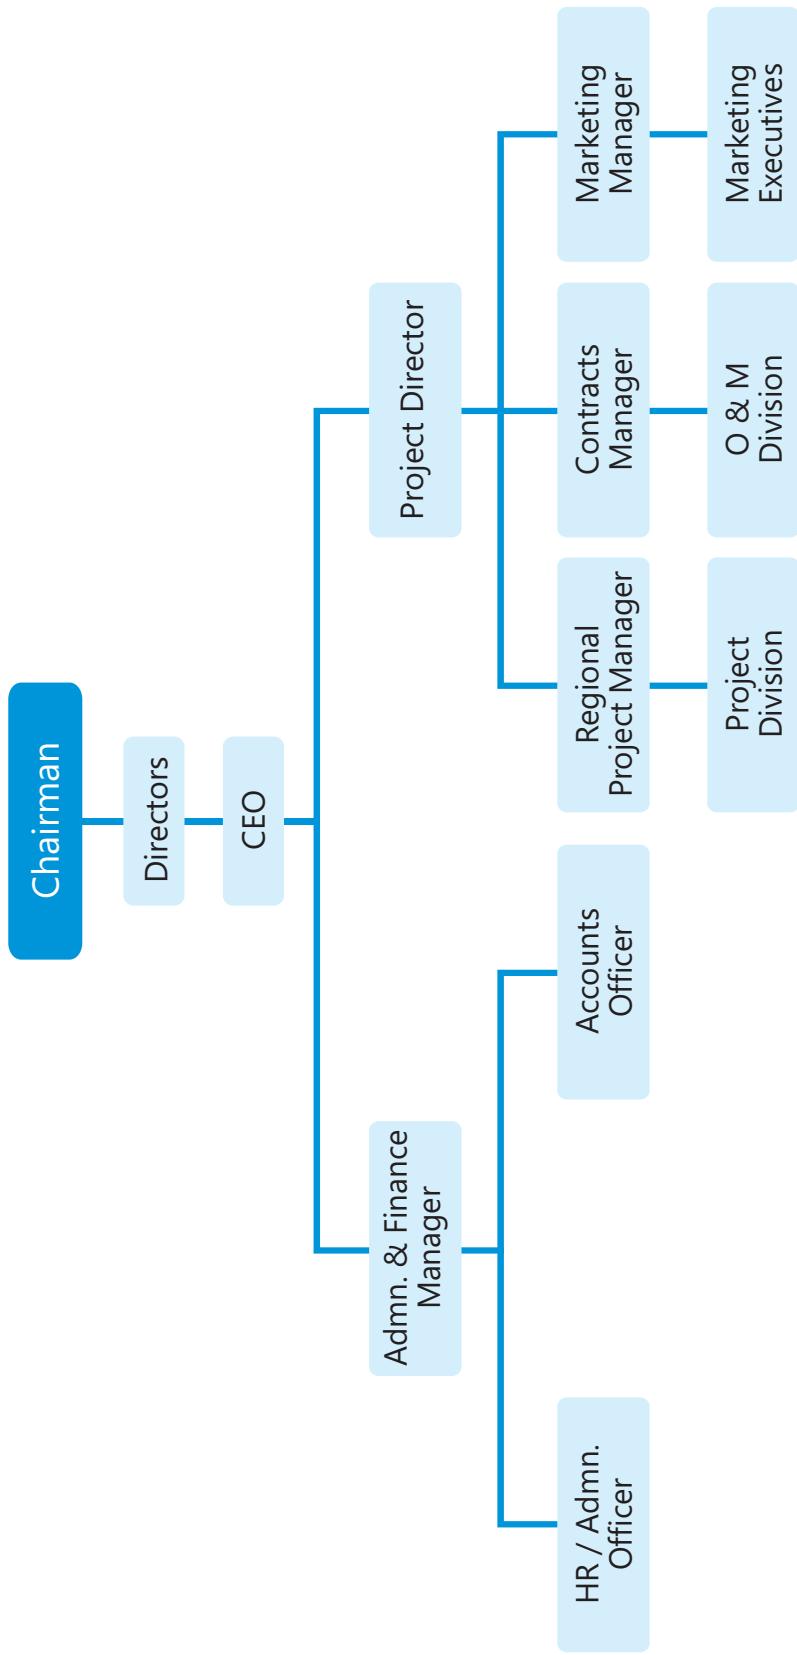

In the year 2007 he also lead off Able Group Trading Contractors, a partnership firm to undertake government contracting works India.

In the year 2009 he originate Able Middle East Construction Co LLC in Muscat Oman and Able Construction LLC Doha Qatar to undertake infra structural sub-contracting.

He is a true leader in a sense that he created leaderships under him to look after businesses independent of his intervention.

Organization Structure

4. RO Plant
5. Airport Sturctures
6. Foundation works for Industrial and other works
7. Valve Chambers, Manholes and Box culverts

Road Works

Able Group Trading Contractors specializes in road works right from preparation to formation other than asphalt works, but it undertakes including asphalt works by having joint venture with one of the best asphalt companies.

Using a group of best grader operators and doze operators who were part of certain famous projects like stimulus package improvements to Mankavu-Kanniparamba road BM & BC work km 2/500 to 11/900 in Kozhikode dist., Stimulus package improvements to the carriage way of Mudappallur Mangalam dam road providing bm and BC from km 0/000 to 9/432 in Palakkad dist. Able group trading contractors is able to produce top quality work to the fullest satisfaction and consultants and clients.

Road Works

The engineers crew takes care of the quality control tests including the in-situ density and proctor tests. Pre-wet of sub base is also done to achieve the desired moisture content known as optimum moisture content.

For grading works in major projects of high value, able group trading contractors insists on the usage of machine automation system, which is fixing gps onto the graders and dozers together with a monitor where you can load the autocad data in front of the operator's seat.

Equipments from trimble or leica are generally used to fix with the machines. The advantage of using machine automation system is to achieve incredible accuracy for which, we use laser augmentation technology.

Able group trading contractors also has tie up with famous laboratories to carry out the quality control test such as sand replacement tests, nuclear test, coring tests, extraction tests for asphalt and all types of concrete tests.

Able group trading contractors has skilled team of mechanics to run wet mix plants for cement treated base aggregates course if the client provides the mix plant. Able group trading contractors liaises with wet mix plant manufacturers to help the client to procure, install and operate on site.

Road Works

Able group trading contractors also undertakes laying of wet mix aggregates using pavers with sensors and without sensors for aggregate base course. The company provides best quality surface by adopting unique method which produces good surface finish.

Able group trading contractors also undertakes miscellaneous structures such as kerb stone installation, new jersey permanent barriers erection, retaining wall around the bridges, laying of interlocking paving blocks, guard rails erection, fencing erection, street light pre-cast bases, box culverts in the highway, pipe culverts for the crossing, concrete ditches, irish crossings and other related works for the road works with efficient and experienced team of professionals and skilled workforce.

Bridge Works

Before a decade able group trading contractor's was one of many small contractors providing bridges and highway works to public; today able group trading contractor's is one of the largest, undertaking the most complex jobs throughout the western states of India. Be it emergency repairs or CMGC, able group trading contractor's has the experience, equipment, capacity and manpower to do the work on time and on budget. Our customers are both public & private and they call us back.
